We, the free people of the first in the history of humanity Space Kingdom ASGARDIA, based on the birthright of a Human in the universe, adopt this

• Asgardia is a free and unified Space Nation.
• The objectives of Asgardia are:
  – To ensure peace in space;
  – To ensure equal opportunities in space for all Asgardians, currently residing on Earth, regardless of their Earthly citizenship;
  – To ensure the protection of the entire humankind.
• Anyone can become a citizen of Asgardia, conditional on assenting to the Declaration, and abiding by the Constitution and the legislation of Asgardia.
• All citizens of Asgardia are equal, irrespective of their Earthly country of origin, citizenship, race, nationality, gender, religion, language, financial standing.
• Asgardia respects the laws of and international treaties concluded by the Earth’s States, and wishes to be recognised as having equal status as the Earth’s States.
• Asgardia does not interfere in any affairs of the Earth’s States based on reciprocity.

BEGINNING
On 12 October 2016, at a press conference in Paris, Igor Ashurbeyli, a distinguished aerospace scientist, visionary and philanthropist, announced the creation of Asgardia, the first space nation in the history of humanity.

CONSTITUTION
Creation of the Constitution is a significant milestone in the history of a new Space Nation. Referendum on its approval began on 18 June 2017, a date which was later declared as Asgardian public holiday: National Unity Day. On 9 September 2017 Dr. Igor Ashurbeyli approved the results of the vote on Asgardia’s Constitution. 72.5% of Asgardians voted in favour of the proposed Constitution. In accordance with Article 32 of the Constitution of Asgardia, on 10 September 2017, by Decree No.10, Igor Ashurbeyli officially assumed the position of Head of Nation. The Constitution later became the foundation for parliamentary elections in Asgardia and for the formation of the government.

INAUGURATION
On 25 June 2018, at the Hofburg Palace in Vienna, Igor Ashurbeyli was inaugurated as the Head of Nation. The official ceremony was attended by about 500 guests from more than 50 countries, ambassadors, representatives of a number of the largest non-governmental organisations, recently elected Members of Parliament of Asgardia, astronauts, space industry leaders, scientists, international lawyers and media representatives from all over the world.

This Declaration is a primary document for the creation of ASGARDIA. It was proposed for public discussion on March 27, 2017 by Decree No.4, and had been adopted by referendum held from 18 June to 9 September 2017, as a part of Constitution.
Asgardia began with selecting the nation’s name. In ancient mythology, Asgard is a dwelling place of the gods, the celestial home of dreams.

The concept of Space “Noah’s” Ark, as the savior of human race and entire terrestrial gene pool, formed the basis of Asgardian scientific researches and paradigm of Asgardia space infrastructure.

MISSION

The birth of the first Space Child on the Noah’s Space Ark is the main mission of Asgardia. The implementation of this mission will create the basis for reproduction of human population in space. The emblem of our mission is a schematic representation of a space ark with a newborn baby (space child) on board, where cosmic radiation protection and artificial gravity are provided.

FLAG

The flag of Asgardia symbolises a place of the first space Nation in our solar system.

Bright yellow circle in the center is the Sun, positioned against the background of the blue sky.

Nine yellow orbits symbolise the nine planets of our solar system.

Three white external orbits symbolises the infinity of humanity’s new discoveries in space that are yet to be made, and the role of Asgardia in creating such a future.

COAT OF ARMS

The coat of arms of Asgardia symbolises the unity of all Asgardians on earth and beyond.

The golden circle at the base is the Sun, the center of our Solar System, the foundation for growth and prosperity of all Asgardians from all Earthly countries. In center is an ancient image of the “divine” flower of life, the symbol of Asgardia. Encircling it the motto of Asgardia: One Humanity – One Unity. The motto surrounded by 12 petals that are equal in size and evenly distributed, signifying the equality of all the official languages of Asgardia. The coat of arms has a crown on top as symbol constitutional monarchy.

The main legal goal is the creation of an independent state recognised by other countries on planet Earth.

New space law should not become the law of the jungle. Space exploration will be equally available to all earthly nations and to all people.

A core legal principle is that Asgardia does not interfere in relations between states on Earth – and vice versa.

The geopolitical conflicts on Earth, deep-rooted in the history of Earthly nations, stand in the way of creating a new, fair legal reality in space.

Asgardia is a platform for stimulating and implementing the most advanced space science research. Asgardia supports startups and attracts investments for creation of space infrastructure.
ASGARDIA IN SPACE
On 12 November 2017, the Asgardia-1 satellite was successfully launched from the Wallops flight facility (Virginia, USA). Thus, Asgardia officially obtained its first territory in space.

ASGARDIA ON EARTH
We are a Space Nation, but we reside on Earth. Asgardia don’t see Earthly borders and don’t create borders in space. A unique map of Asgardia shows the location of Asgardians on planet Earth. The map shows Earthly cities with the number of Asgardians residing in each of them.

ASGARDIAN NETWORK
Asgardia is where Asgardians are. We have created a unique social network available to all Asgardians, based on global Asgardian’s map and showing their location on Earth. Via this social network, Asgardians can communicate with each other, create communities, maintain scientific and cultural ties, conduct research, while being in a different part of the world.

I believe Asgardia is the positive alternative to societies where obsession with power and greed are treated as if they are good. ### Theas

- The frequency of an “extra day duplicate” (EDD) is determined by “Morozov’s calendar constant” [31/128 of the day = 0.2421875 days = 20925 seconds].
