

THE GOVERNMENT OF ASGARDIA

Honorable Dr. Igor Ashurbeyli, Head of the Nation
Mr. Lembit Opik, Chairman of Parliament
Dr. Mikhail Spokoyny, Head of Administration

Dear Parliamentary Colleagues,

By overcoming all kinds of obstacles Asgardia has achieved it. We have just held the First Digital Session of Parliament in the history of mankind. Congratulations to all!

Asgardian Members of Parliament from America, Europe, Asia, Africa and Oceania were present at the same time regardless of their time zones. We were all there.

Thanking all those who with their efforts, hard work and perseverance have made this possible, from the highest authorities to the teams of internal operators.

Our 1st Digital Session coincided with the celebration of our 2nd Anniversary on October 12th.

Usually in the history of nations there are episodes of war, destruction, pain and suffering, in our case we are the product of an idea. Human creations have always come first from an idea.

The great human achievements have been first a dream, a sustained desire that becomes passion, and a passion that manages to overcome difficulties and transform obstacles into wonderful realities.

Asgardia was an idea of Dr. Igor Ashurbeyli, our Head of the Nation. It is a dream that we all already share...

Will we become so passionate as to overcome difficulties and transform obstacles into a wonderful reality? I bet yes!

I firmly believe in the extraordinary capacity of the human race, to self-manage, self-correct and overcome.

Easy? By no means! - Achievable? Of course! The test is in sight.

With many difficulties, with many things that we do not like, the human race inhabits the earth and over many years has walked and built on its evolution.

Will we see it? I don't know. I would love to!

We do our best every day to keep ourselves focused on this vision.
I feel very proud to be part of the team that is sowing the future of humanity.

History will tell, our children, grandchildren, great-grandchildren and following generations will know that we had a vision by allowing ourselves to dream and be passionate about this idea, which will be their present by then.

Between where we are today and what we want to become, a lot is still missing.

In the months of July, August and September we have dedicated to organizing the Government according to what our Constitution dictates, as well as representing Asgardia the best we can.

In the next three months we will form the Cabinet and we will articulately determine the tasks in which this Government should begin to work towards our immediate objectives.

Consolidating as a Nation is our priority!

In 2019 we will dedicate ourselves to more specific tasks so that Asgardian citizens feel identified with the dream that initially attracted them to this project and at the same time make other people also want to obtain our citizenship in the future and be part of this history.

I reiterate my gratitude and my commitment by calling all Members of Parliament and fellow citizens to maintain the vision and preserve the dream in which we believe.

With our mistakes and successes we are leaving traces in history, we are opening the way.

We are ONE HUMANITY - ONE UNITY, We are ASGARDIANS!

Asgardian Greetings,

Ana Mercedes Díaz
Prime Minister, Asgardia
